

**SOUTH COAST WATER DISTRICT  
DIRECTOR**

**NAME: GARY LANGDALE**

**OCCUPATION:** Retired Finance Director

As SCWD Finance Director, I acquired a unique understanding of District issues, especially, financial issues. I've attended board meetings for the past three years, and actively participated. Under my financial stewardship, I reorganized staffing in the finance departments, streamlined and improved the annual budget process, and reduced independent accounting costs and audit fees by over \$250,000 annually. I upgraded the District's \$52 million investment portfolio improving performance and security.

My record demonstrates, as a high level manager, I worked well with the Board and the management team. My work was accomplished thoroughly and expeditiously and I managed others well. I embraced the challenges at SCWD and rose to the occasion to make a significant contribution.

In addition to the water industry, I have years of construction and real estate development experience as CFO and Director of Finance/Administration.

If you're looking for someone to watch over your dollars, then I'm your candidate!

I've lived in the area for 34 years. My wife and I have four children and six grandchildren. I've been active in community service since 1974.

My governance philosophies are:

- Accountability
- Open and transparent governance
- "No nonsense" straight talk

Thanks for your vote for Gary Langdale.
