Denis Fitzgerald is very concern about illegal immigrants attending our public schools and obstructing the education of our American children. Americans, including legal immigrants who are American citizens, suffer greatly when other immigrants take advantage of our American education system.

It is these illegal immigrants that are taking the jobs and lowering the wages of American workers.

Thousands of American servicemen have given their lives to preserve our country and give advantages, such as free education, to American children. Denis Fitzgerald is outraged by those who sneak into our country and steal the many advantages our veterans and forefathers have provided for us Americans.

Many politicians make promises but do nothing to stop the problems of illegal aliens in our country. Denis Fitzgerald, if elected, will do everything within his power to stop the enormous burden that illegal immigration produces for the AUHSD and taxpayers in general.
